SUMMARY

As a versatile technology expert, I possess a unique combination of skills in Ethical Hacking, Artificial Intelligence, Advanced Cyber Security, and software development. With expertise in:

- **Ethical Hacking:** I identify vulnerabilities and strengthen security measures to protect against cyber threats.

- **Artificial Intelligence:** I design and develop intelligent systems that drive innovation and transform industries.

- **Advanced Cyber Security:** I stay ahead of emerging threats, ensuring robust security solutions for individuals and organizations.

- **Meta Android Developer:** I craft seamless mobile experiences, leveraging my knowledge of Android development.

- **Programming languages:** I'm proficient in Python, C, and C++, enabling me to tackle complex projects and develop efficient solutions.

My diverse skill set allows me to bridge the gap between security, AI, and development, making me a valuable asset in today's tech-driven landscape. I'm committed to continuous learning, ensuring my skills stay up-to-date with the latest advancements in technology.

STRENGTHS

Critical Thinking
I consider myself a critical thinker mainly because I ask questions in the working process that nobody else does.

Gperating System
Proficient in operating systems, including Windows, Linux, and macOS, with a strong understanding of system vulnerabilities and threat mitigation.

Self-Disciplined
Self-disciplined approach to problem-solving, with a focus on analytical thinking, creativity, resourcefulness and able to maintain confidentiality and handle sensitive information with discretion, demonstrating self-discipline in maintaining confidentiality and integrity

Expert in Cyber Security
Advanced skills in ethical hacking and security measures And Strong understanding of security best practices, including secure coding, secure configuration, and secure deployment

Cryptography & Encryption
Strong expertise in cryptography and encryption technologies, with the ability to design and implement secure communication protocols.
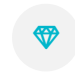

TECHNICAL SKILLS

Kali Linux   Advanced Cyber Security

Ethical Hacking   C Programming   C++

Generative AI   Artificial Intelligence

Basics Python   Meta Android Developer

Machine Learning On Google Cloud

EDUCATION

Bachelor Of Engineering (AI&ML)
Dr. Ambedkar Institute of Technology

📅 09/2023   📍 Bengaluru, Karnataka

COURSES

🤖 Cyber Security Tools & Cyber Attacks

🤖 Artificial Intelligence

💎 Certified Ethical Hacking

🖥️ Kali Linux

⭐ Meta Android Developer

🌧️ Machine Learning On Google Cloud

</> Python Basics
